PPL ELECTRIC UTILITIES

February 26, 2014

MICHAEL HILLENBRAND  
600 RUTHERFORD ROAD  
HARRISBURG, PA 17109

Dear Michael:

Acct. Number: 1107073004

Welcome to the E-power<sup>®</sup> Energy-Smart Business Honor Roll – our way of recognizing the measures you have recently taken to become more energy-efficient.

To showcase your organization's commitment to energy efficiency, we've enclosed a certificate of recognition on which you can enter your company name, as well as an Honor Roll window cling, that we hope you will display proudly.

Additionally, we'd like to publicly applaud your energy-saving efforts on our Honor Roll web page along with other organizations that also have taken action to become more energy-efficient. Visit [ppllectric.com/HonorRoll/signup](http://ppllectric.com/HonorRoll/signup) and enter the account number listed above to register. And while you're on the website, download an Energy-Smart Business Honor Roll seal of recognition. You can post it on your website or use on your printed materials to proclaim your commitment to energy-efficiency.

If you are a business with multiple accounts, please share this with your participating facilities and contact us at [HonorRoll@pplweb.com](mailto:HonorRoll@pplweb.com) if you need additional window clings or certificates.

We've also enclosed additional information about how E-power programs can continue to support efforts to reduce your company's energy costs sooner rather than later. If you have questions, please contact our E-power Solutions Team at [EpowerSolutions@kema.com](mailto:EpowerSolutions@kema.com) or by calling 1-866-432-5001.

Being energy-efficient not only has positive implications for your bottom line and operating margins, it also demonstrates the kind of awareness and commitment that will lead our communities to better energy and environmental practices.

Thank you,

Greg Dudkin  
President, PPL Electric Utilities Corporation
