CENTRAL DAUPHIN SCHOOL DISTRICT INTERSCHOLASTIC ATHLETICS AUTHORIZATION FOR RELEASE OF MEDICAL INFORMATION

Please read the following statements and sign below:

I hereby authorize the use or disclosure of my individually identifiable Protected Health Information (PHI) as described below. I understand this authorization is voluntary. I understand that if the organization authorized to receive this information is not a health plan or health care provider, the release of information may no longer be protected by Health Insurance Portability and Accountability Act (HIPAA) regulations. The PHI may be re-disclosed by the recipient as appropriate according to Family Educational Rights and Privacy Act (FERPA), which is a federal law that protects the privacy of student educational records.

Organization Providing the Information: Central Dauphin School District appointed Physician(s), Student-Athlete's Primary Physician, and any Physician serving a Central Dauphin School District Student Athlete, and the Student Athlete's Nurse(s) or Certified Athletic Trainer(s) at their school building of attendance.

Organization(s) or Person(s) Receiving the Information: Central Dauphin School District appointed Physician(s) and the Certified Athletic Trainer(s), Nurse(s), Coaches, and Athletic Director at the student athlete's school building of attendance.

Specific Description of Information Disclosed: All medical and individually identifiable Protected Health Information (PHI) relating to any sports injury, including but not limited to diagnosis, treatment, prognosis, likelihood and timing of recovery and recommendations concerns ability to play competitively and safely.

Purpose of Disclosure: To apprise Central Dauphin School District appointed Physician(s), and the Certified Athletic Trainer(s), Nurse(s), Coaches, and Athletic Director at the student athletes school building of attendance about the extent and nature of any sports-related injury for the purpose of rehabilitation, training, recovery, and ability to play competitively and safely.

I understand this authorization will expire one year from the signed date, or on the graduation date from the current educational institution high school, whichever shall first occur.

I understand that I may revoke this Authorization at any time by notifying Central Dauphin School District's appointed Physician(s) in writing, but if I do, it will not have any effect on any actions Central Dauphin School District's appointed Physician(s) took before he/she received the revocation.

ACKNOWLEDGEMENT OF A SCHOOL OFFERED SPORTS PHYSICAL EVALUATION

Central Dauphin School District Appointed Physicians from Penn State Health

I/We hereby acknowledge that if my child attends one of the school-offered sports physical evaluations, that he/she is receiving either a pre-participation evaluation or recertification prior to participating in athletics at this institution. This evaluation does not replace the need for annual well child examination with their regular primary care provider. This screening does not address routine health care needs such as recommended immunizations, nor does it include evaluation and testing for such things as childhood obesity or other childhood problems. I/We understand that I/we are strongly encouraged to continue annual checkups with your child's primary care provider. Further, I/we understand that should any of the CDSD appointed physicians during my child's pre-participation evaluation or recertification find them not fit to participate, I/we will obtain further evaluation at our expense from our primary care provider or specialist and furnish any required records or reports from these healthcare professionals who have examined or treated my child.

ACKNOWLEDGEMENT OF RISK, RELEASE AND WAIVER OF LIABILITY AND CONSENT TO PARTICIPATE

Please read the following statements and sign below:

I/We hereby acknowledge that participation in athletics involves a risk of injury. I/We understand that this risk includes severe injuries possibly involving paralysis, permanent mental disability, or death, and that these injuries may occur, in some instances, as the result of unavoidable accidents. I/We assume these risks and give consent to participate in athletic activities during the current season by the undersigned athlete and guardian/parent.

I/We assume these risks including, but not limited to: 1) risk of injury associated with the use of District equipment in conjunction with athletic activities, 2) risk of injury arising from participation in supervised or unsupervised athletic activities and programs, including tryouts, games, scrimmages, practices and training, and 3) risk of injury or medical disorder resulting from participation in the athletic activity.

I/We expressly waive, disclaim, and release CDSD, its directors, agents, employees, and representatives from and against any claims of any kind whatsoever, including, but not limited to, claims of negligence, costs, liabilities, expenses, and judgements, related to any injury sustained, as a result of the participation in athletics.

By signing this agreement, I affirm that I have read and understand the terms of the agreement and that I/we give consent to participate in the athletic activities during the season.

PIAA COMPREHENSIVE INITIAL PRE-PARTICIPATION PHYSICAL EVALUATION

INITIAL EVALUATION: Prior to any student participating in Practices, Inter-School Practices, Scrimmages, and/or Contests, at any PIAA member school in any school year, the student is required to (1) complete a Comprehensive Initial Pre-Participation Physical Evaluation (CIPPE); and (2) have the appropriate person(s) complete the first six Sections of the CIPPE Form. Upon completion of Sections 1 and 2 by the parent/guardian; Sections 3, 4, and 5 by the student and parent/guardian; and Section 6 by an Authorized Medical Examiner (AME), those Sections must be turned in to the principal or the principal's designee of the student's school for retention by the school. The CIPPE may not be authorized earlier than June 1st and shall be effective regardless of when performed during a school year until the latter of the next May 31st or the conclusion of the spring sports season.

SUBSEQUENT SPORT(S) IN THE SAME SCHOOL YEAR: Following completion of a CIPPE, the same student seeking to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests in subsequent sport(s) in the same school year, must complete Section 7 of this form and must turn in that Section to the Principal, or Principal's designee, of his or her school. The principal or the principal's designee will then determine whether Section 8 need be completed.

SECTION 2: CERTIFICATION OF PARENT/GUARDIAN The student's parent/guardian must complete all parts of this form. **A.** I hereby give my consent for born on on his/her last birthday, a student of School who turned and a resident of the public school district. to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests during the 20 - 20 school year in the sport(s) as indicated by my signature(s) following the name of the said sport(s) approved below. Fall Signature of Parent Winter Signature of Parent Spring Signature of Parent or Guardian or Guardian or Guardian Sports Sports **Sports** Basketball Baseball Cross Country Bowling Boys' Field Lacrosse Competitive Hockey Girls' Spirit Squad Football Lacrosse Girls' Golf Softball Gymnastics Bovs' Soccer Rifle Tennis Girls' Swimming Track & Field **Tennis** and Diving (Outdoor) Girls' Track & Field Boys' Volleyball (Indoor) Volleyball Water Wrestling Other Polo Other Other Understanding of eligibility rules: I hereby acknowledge that I am familiar with the requirements of PIAA concerning the eligibility of students at PIAA member schools to participate in Inter-School Practices, Scrimmages, and/or Contests involving PIAA member schools. Such requirements, which are posted on the PIAA Web site at www.piaa.org, include, but are not necessarily limited to age, amateur status, school attendance, health, transfer from one school to another, season and out-of-season rules and regulations, semesters of attendance, seasons of sports participation, and academic performance. Parent's/Guardian's Signature Disclosure of records needed to determine eligibility: To enable PIAA to determine whether the herein named student is eligible to participate in interscholastic athletics involving PIAA member schools, I hereby consent to the release to PIAA of any and all portions of school record files, beginning with the seventh grade, of the herein named student specifically including, without limiting the generality of the foregoing, birth and age records, name and residence address of parent(s) or guardian(s), residence address of the student, health records, academic work completed, grades received, and attendance data. Parent's/Guardian's Signature Date / / Permission to use name, likeness, and athletic information: I consent to PIAA's use of the herein named student's name, likeness, and athletically related information in video broadcasts and re-broadcasts, webcasts and reports of Inter-School Practices, Scrimmages, and/or Contests, promotional literature of the Association, and other materials and releases related to interscholastic athletics. Parent's/Guardian's Signature Permission to administer emergency medical care: I consent for an emergency medical care provider to administer any emergency medical care deemed advisable to the welfare of the herein named student while the student is practicing for or participating in Inter-School Practices, Scrimmages, and/or Contests. Further, this authorization permits, if reasonable efforts to contact me have been unsuccessful, physicians to hospitalize, secure appropriate consultation, to order injections, anesthesia (local, general, or both) or surgery for the herein named student. I hereby agree to pay for physicians' and/or surgeons' fees, hospital charges, and related expenses for such emergency medical care. I further give permission to the school's athletic administration, coaches and medical staff to consult with the Authorized Medical Professional who executes Section 7 regarding a medical condition or injury to the herein named student. Parent's/Guardian's Signature Date Confidentiality: The information on this CIPPE shall be treated as confidential by school personnel. It may be used by the school's athletic administration, coaches and medical staff to determine athletic eligibility, to identify medical conditions and injuries, and to promote safety and injury prevention. In the event of an emergency, the information contained in this CIPPE may be shared with emergency medical personnel. Information about an injury or medical

Parent's/Guardian's Signature ______Date___/___/

condition will not be shared with the public or media without written consent of the parent(s) or quardian(s).

SECTION 3: UNDERSTANDING OF RISK OF CONCUSSION AND TRAUMATIC BRAIN INJURY

What is a concussion?

A concussion is a brain injury that:

- Is caused by a bump, blow, or jolt to the head or body.
- Can change the way a student's brain normally works.
- Can occur during Practices and/or Contests in any sport.
- Can happen even if a student has not lost consciousness.
- Can be serious even if a student has just been "dinged" or "had their bell rung."

All concussions are serious. A concussion can affect a student's ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most students with a concussion get better, but it is important to give the concussed student's brain time to heal.

What are the symptoms of a concussion?

Concussions cannot be seen; however, in a potentially concussed student, **one or more** of the symptoms listed below may become apparent and/or that the student "doesn't feel right" soon after, a few days after, or even weeks after the injury.

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light or noise

- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion

What should students do if they believe that they or someone else may have a concussion?

- Students feeling any of the symptoms set forth above should immediately tell their coach and their parents. Also, if they notice any teammate evidencing such symptoms, they should immediately tell their coach.
- The student should be evaluated. A licensed physician of medicine or osteopathic medicine (MD or DO), sufficiently familiar with current concussion management, should examine the student, determine whether the student has a concussion, and determine when the student is cleared to return to participate in interscholastic athletics.
- Concussed students should give themselves time to get better. If a student has sustained a concussion, the student's brain needs time to heal. While a concussed student's brain is still healing, that student is much more likely to have another concussion. Repeat concussions can increase the time it takes for an already concussed student to recover and may cause more damage to that student's brain. Such damage can have long term consequences. It is important that a concussed student rest and not return to play until the student receives permission from an MD or DO, sufficiently familiar with current concussion management, that the student is symptom-free.

How can students prevent a concussion? Every sport is different, but there are steps students can take to protect themselves.

• Use the proper sports equipment, including personal protective equipment. For equipment to properly protect a student, it must be:

The right equipment for the sport, position, or activity is Worn correctly and the correct size and fit; and Used every time the student Practices and/or competes.

- Follow the coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.

If a student believes they may have a concussion: Don't hide it. Report it. Take time to recover.

I hereby acknowledge that I am familiar with the nature and risk of concussion and transparticipating in interscholastic athletics, including the risks associated with continuing to comp traumatic brain injury.

Parent/Guardian Signature:	Date	_/	/	

SECTION 4: UNDERSTANDING OF SUDDEN CARDIAC ARREST SYMPTOMS AND WARNING SIGNS

What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) occurs when the heart suddenly and unexpectedly stops beating. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

How common is sudden cardiac arrest in the United States?

There are about 350,000 cardiac arrests that occur outside of hospitals each year. More than 10,000 individuals under the age of 25 die of SCA each year. SCA is the number one killer of student athletes and the leading cause of death on school campuses.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as

- Dizziness or lightheadedness when exercising;
- · Fainting or passing out during or after exercising;
- Shortness of breath or difficulty breathing with exercise, that is not asthma related;
- Racing, skipped beats or fluttering heartbeat (palpitations)
- Fatigue (extreme or recent onset of tiredness)
- Weakness;
- Chest pains/pressure or tightness during or after exercise.

These symptoms can be unclear and confusing in athletes. Some may ignore the signs or think they are normal results off physical exhaustion. If the conditions that cause SCA are diagnosed and treated before a life-threatening event, sudden cardiac death can be prevented in many young athletes.

What are the risks of practicing or playing after experiencing these symptoms?

There are significant risks associated with continuing to practice or play after experiencing these symptoms. The symptoms might mean something is wrong and the athlete should be checked before returning to play. When the heart stops due to cardiac arrest, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who experience a SCA die from it; survival rates are below 10%

Act 73 – Peyton's Law - Electrocardiogram testing for student athletes

The Act is intended to help keep student-athletes safe while practicing or playing by providing education about SCA and by requiring notification to parents that you can request, at your expense, an electrocardiogram (EKG or ECG) as part of the physical examination to help uncover hidden heart issues that can lead to SCA.

Why do heart conditions that put youth at risk go undetected?

- Up to 90 percent of underlying heart issues are missed when using only the history and physical exam;
- · Most heart conditions that can lead to SCA are not detectable by listening to the heart with a stethoscope during a routine physical; and
- Often, youth don't report or recognize symptoms of a potential heart condition.

What is an electrocardiogram (EKG or ECG)?

An ECG/EKG is a quick, painless and noninvasive test that measures and records a moment in time of the heart's electrical activity. Small electrode patches are attached to the skin of your chest, arms and legs by a technician. An ECG/EKG provides information about the structure, function, rate and rhythm of the heart.

Why add an ECG/EKG to the physical examination?

Adding an ECG/EKG to the history and physical exam can suggest further testing or help identify up to two-thirds of heart conditions that can lead to SCA. An ECG/EKG can be ordered by your physician for screening for cardiovascular disease or for a variety of symptoms such as chest pain, palpitations, dizziness, fainting, or family history of heart disease.

- ECG/EKG screenings should be considered every 1-2 years because young hearts grow and change.
- ECG/EKG screenings may increase sensitivity for detection of undiagnosed cardiac disease but may not prevent SCA.
- ECG/EKG screenings with abnormal findings should be evaluated by trained physicians.
- If the ECG/EKG screening has abnormal findings, additional testing may need to be done (with associated cost and risk) before a diagnosis can be made, and may prevent the student from participating in sports for a short period of time until the testing is completed and more specific recommendations can be made.
- The ECG/EKG can have false positive findings, suggesting an abnormality that does not really exist (false positive findings occur less when ECG/EKGs are read by a medical practitioner proficient in ECG/EKG interpretation of children, adolescents and young athletes).
- ECGs/EKGs result in fewer false positives than simply using the current history and physical exam.

The American College of Cardiology/American Heart Association guidelines do not recommend an ECG or EKG in asymptomatic patients but do support local programs in which ECG or EKG can be applied with high-quality resources.

Removal from play/return to play

Any student-athlete who has signs or symptoms of SCA must be removed from play (which includes all athletic activity). The symptoms can happen before, during, or after activity.

Before returning to play, the athlete must be evaluated and cleared. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner, or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed this form and understand the symptoms and warning signs of SCA. I have also read the information about the electrocardiogram testing and how it may help to detect hidden heart issues.
