

A Note to Parents/Guardians regarding Transportation (updated 10.08.19):

First and foremost, thank you to our families for the continued support for your schools. We also want to thank you for your patience and understanding as we continue to work through transportation issues during the school year. Our district encompasses 118 square miles with 136 bus routes serving over 50 schools and more than 14,000 students. This year we are experiencing more issues than normal and we are working to resolve each one. That being said, even one issue can cause delays that hinder our goal of timely and consistent transportation for students. We continue to work with our transportation providers and appreciate the bus drivers and staff who are responsible for our students every day. We want to thank you, as parents/guardians, again for your patience.
